

## HVW Covid Notice 1.4.2022

Due to recently expressed concerns from HVW residents regarding the current increase in COVID-19 positive cases in Florida and around the country, we will continue to follow current guidelines and respond as necessary.

At this time the Clubhouse remains open with an existing recommendation, but no requirement, for mask wearing in the clubhouse. The pool remains open with no current mask requirements. That said, we ask that everyone remain aware and vigilant of their health conditions and respect the boundaries of other individuals around them. If you feel that not wearing a mask or contact with others at Coffee Hour, bingo, committee meetings or other activities places a greater risk on your health, please trust your instincts and either wear a mask or do not attend.

We are watching the actions of other communities and have not received any new instructions from the State of Florida, regarding the rise in cases. It is for these reasons we continue to follow the standing Clubhouse instructions as posted on the HVW Website with no changes. At this time, the Dinner/Dance for February 11, 2022 remains on the schedule but will remain subject to change if we are so advised by health authorities.

There does not appear to be any risks noted by any agencies about use of the pool, nor limiting of the number of people at the pool at one time due to the current rise in Florida positive tests. The pool will remain open with no new restrictions, at this time.

All of this is subject to any new guidance we receive from State or Federal agencies which would affect our condominium association. COVID-19 remains a fluid, moving target and it is the responsibility of each of us as individuals to keep ourselves and our neighbors safe. Please remain respectful of others choices and continue to model the behavior you wish to see from others.

HVW President
